

REMARKS/ARGUMENTS

Favorable consideration of this application, as presently amended, is respectfully requested.

By the present preliminary amendment the specification is amended to correct minor informalities.

A new Abstract believed to be in more proper format under United States practice is also submitted herein.

The claims are also amended to no longer recite any multiple dependencies. Further, the subject matter from some of the canceled multiple dependencies is also now presented in new dependent claims 11-14.

The amendments to the specification and claims are believed to be self-evident from the original disclosure, and thus are not believed to raise any issues of new matter. Further, the claim amendments are not believed to narrow the claims in any aspect.

The present application is believed to be in condition for a full and thorough examination on the merits. An early and favorable consideration of the present application is hereby respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
